39mm WG Conversion Kits

1988-up Wide Glide Conversion Kit fits XL models with 39mm tubes and single 11.5" disc and 3/4" axle. Include tree set, axle, spacers, lower tree cover and related hardware. Both kits use 1984-99 type front rotors.

VT No. Fits

24-9928 1988-99

24-0595* 2000-up

***Note:** 2004-up models require purchase of caliper & rotor kit 23-0563. 2000-03 require the purchase of 84-99 style rotor.

24-9928 Installed use with stock leg assembly and wheel.

39mm to 41mm Conversion Kit

Narrow Glide Conversion Kit allows use of 41mm leg assembly, 1984-99 style and utilizes the original FXD or XL 19" or 21" wheels, and the caliper and rotor from the original motorcycle. 24-0958 is shown with stock leg assembly 24-0510 FXST style.

Narrow Glide Conversion Kit to fit FXD-XL 39mm models includes upper and lower triple trees, stem, stem nut, fork stops, axle, axle spacers and fender spacers. For use with 1984-99 FXST/FXDWG 41mm fork leg assemblies and 1984-99 narrow glide 19" or 21" wheel assembly with aluminum hub and front fender. Accepts OEM 11.5" rotor and caliper (custom brakes may cause interference with laced wheels). Measures 4^{15/16}" between fender mounts. For front wheel speedometer operation, replace left side axle spacer with speedo drive unit,

Note: See Vintage section for 1952-72 components.

Attention!!

These fork tubes have been manufactured and tested for exact fit and application per model. It can be difficult to identify the front end assemblies because they may not always be original equipment. Before installing, compare old and new tubes. Be sure the stock top plugs fit into the new fork tubes. To avoid scratching the chrome, we suggest that the tubes be lightly rubbed with oil before installing into fork legs. Be absolutely sure you have the right tubes before you install them. No fork tubes can be accepted for return that are scratched or damaged due to improper installation or handling.
